

PHYS 221 FINAL Grades

Below are the grades for your second exam and the Final grades that I have computed for the class. Use the last four digits of your "G number" to find your grade. I computed the grades weighted three ways between the homework (with discussion) and the exams (10/90, 20/80, 30/70) and then gave you the best grade.

Please do not hesitate to email me if you have questions about your grade.

Have a great summer and best wishes to all of you for the future!
